## Capabilities Statement

---

Range Precision, a subsidiary of Sayler Holdings Inc. has been pioneering within the industry since 1983. We specialize in machined components and assemblies and operate with a lean, just-in-time approach. Trusted by top industrial and government OEM manufacturers, we deliver impeccable quality and competitive pricing in precision parts, ensuring timely delivery without compromise.

We are honored and privileged to serve our armed forces by manufacturing the parts and tools they depend on to do their job. When lives are on the line, quality, and dependability matter. At Range Precision, we embody strategic excellence, fortifying the foundations of the Defense industry with our unmatched expertise. Our commitment to excellence in precision engineering is a cornerstone, providing the Defense industry with robust solutions that stand resilient in the face of challenges.

To be the leading supplier of high-quality, innovative manufactured products, leveraging our advanced equipment, and drawing on the knowledge and experience of our talented team.
